

Study Programme

: Bachelor of Software Engineering Honours

Name of the Examination

: Final Examination

Course Code and Title

: EEI3346 Web Application Development

Academic Year

: 2020/21

Date

: 17th December 2021

Time

: 0930-1230hrs

Duration

: 3 hours

General Instructions

- 1. Read all instructions carefully before answering the questions.
- 2. Answer all questions in Section A
- 3. Answer for Section A should mark in this sheet.
- 4. Attached this answer sheet with Section B answer book.

ANSWER SHEET FOR SECTION A

The Open University of Sri Lanka Faculty of Engineering Technology Department of Electrical and Computer Engineering

Study Programme

: Bachelor of Software Engineering Honours

Name of the Examination

: Final Examination

Course Code and Title

: EEI3346 Web Application Development

Academic Year

: 2020/21

Date

: 17th December 2021

Time

: 09.30 - 12.30

Duration

: 3 hours

General Instructions

1. Read all instructions carefully before answering the questions.

- 2. This question paper contains **Part A** and **Part B**. **Part A** answer should be marked in the answer sheet provided. **Part B** answer should be written in the answer book provided. Answer for each question should commence from a new page.
- 3. This question paper consists of Twenty three (23) questions in Six (6) pages.
- 4. Answer all questions.
- 5. This is a Closed Book Test (CBT).
- 6. Answers should be in clear hand-writing.
- 7. Do not use red colour pen.

Part - A

1.	The E	BODY tag is usually used after																													
	a.	HTML tag																													
	b.	EM tag																													
	c.	TITLE tag																													
	d.	HEAD tag																													
2.	The n	nain container for <tr>, <td> and <th> is</th></td></tr> <tr><th></th><th>a.</th><th><data></data></th></tr> <tr><th></th><th>Ъ.</th><th><group></group></th></tr> <tr><th></th><th>c.</th><th><table></table></th></tr> <tr><td></td><td>d.</td><td>None of the above</td></tr> <tr><td>_</td><td>3331 1 1</td><td></td></tr> <tr><td>3.</td><td></td><td>a tag tells the browser where the page starts and stops?</td></tr> <tr><td></td><td>a.</td><td> </td></tr> <tr><td></td><td>b.</td><td><head></head></td></tr> <tr><td></td><td>c. d.</td><td><title> <html></td></tr><tr><td></td><td>u.</td><td></td></tr><tr><td>4.</td><td>In CC</td><td>S what does h1 can be called?</td></tr><tr><td>т.</td><td>a.</td><td>Selector</td></tr><tr><td></td><td>ъ.

	d.	Both A and C	
9.	The "fi	unction" and " var" are known as	_in JavaScript. Fill in the blank with
		rect word/s.	
		Keyword	
		Data Type Declaration Statement	
		Prototypes -	
	. u.	Tiolotypes	
10.	What	is the correct Javascript syntax to write "Hello World"	??
	a.	System.out.println("Hello World")	•
	b.		
	c.		
	d.	document.write("Hello World")	
11.	What a	are variables used in JavaScript Programs?	•
	a.	Storing numbers, dates, or other values	
	b.	Varying randomly	
	c.	Causing high-school algebra flashbacks	
	d.	None of the above	
		t o	
12.	PHP 15	s an example of ascripting language	
	а. b.		
		browser-side	•
		in-side	
12	niin a	owints are analoged within	
15.		cripts are enclosed within	
		<php> </php>	
		php ?	·
		?php ?php	
	d.	,	
14.	What	will be the output of the following program?	
;</td <td>php</td> <td></td> <td></td>	php		
\$v	arl = "F	Hello";	
\$v	ar2 = "V	Vorld";	
ecl	no \$var	1, \$var2;	
?>			
	a. He	eiloWorld	
-		ello, World	
		ello World	
		one of the above	
•	U. 11		

15. What kind of transmission medium is most appropriate to carry data in a computer network

uiai is	exposed to electrical interferences?
a,	Unshielded twisted pair
b.	Optical fiber
c.	Coaxial Cable
d.	Microwave
16. It can	be a software program or a hardware device that filters all data packets coming through
the int	ernet, a network, etc. it is known as the:
a.	Antivirus
b.	Firewall
c.	
d.	Malware
17. Which	of the following is the correct full form of SaaS?
	Storage-as-a-Service
b. с.	
	None of the above
18. What i	s WordPress
a.	Content Management System
b.	Framework
C.	
d.	Operating system
10	Artificial Intelligence is about.
a.	Playing a game on a omputer
	Making a machine intelligent
	-
c.	Programming on Machine with your Intelligence
d.	Putting your intelligence in Machine
-	njection- is an- attack in which code is inserted into strings that are later
_	to an instance of SQL Server.
a. b.	Malicious Redundant
о. с.	Clean
d.	Non-malicious
٠.,	

Part - B - Answer all questions.

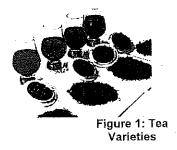

Question 01

You have been asked to design an online catalogue for a tea shop with the following information.

Taste y	our fa	avorit	e Tea	here
---------	--------	--------	-------	------

Categories	How was it made?
White Tca	Real white tea is made from the handpicked buds of the Camellia Sinensis plant
Green Tea	The leaf is picked, withered, heated and then rolled before drying and sifting
Oolong Tea	The teas are picked, often 3 leaves and a bud, withered, fermented, then heated, rolled and dried.
Black Tea	Black tea is picked, withered to reduce moisture and make the leaf pliable, then rolled,
The state of the s	fermented and dried (or red) before sifting.

- a) Write an HTML snippet to create the given table which would display the information about the tea. [08 Marks]
- b) Write the CSS code to insert the following picture with the given details
 Width is100px and height is 100px. [06 Marks]

c) Write a sample PHP snippet code to calculate the number of times the **Oolong Tea** has been sold in a given day. [06 Marks]

Question 02

a) Web applications have gradually evolved from static to dynamic nature keeping in view the needs of the potential users and advancement in technology. It is important to follow a systemic approach for the development of websites.

List the main phases of the Web engineering process model [05 Marks]

b) What is the difference between frontend and backend web development?

[04 Marks]

c)

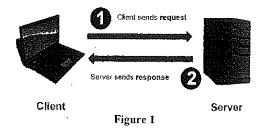

i. Explain the term , Computer network"?

[02 Marks]

ii. List some advantages and disadvantages of using Fiber Optic cable?

[04 Marks]

d) Consider Figure 1 below,

i. Explain how does a Web browser work?

[02 Marks]

ii. What is HTTP? Briefly explain the anatomy of HTTP?

[03 Marks]

Question 03

Knowing how to write HTML-, CSS and JavaScript are not all to web development. When you are building a website it's not only about design and interface, in most cases when your website is more than a few static pages you would need a backend and a database, and building that requires much more than knowing HTML, CSS and JavaScript. You will have to design a database architecture that is fit for your requirements, something to access the database and fetch the data for your front end. And the bigger this website gets, the more that architecture and high-level code comes into play.

Based on the above statement, answer the following questions.

[20 Marks]

- a) Explain the use of HTML, CSS, JavaScript, and their importance in web development.
- b) Briefly explain the key responsibilities of a Web Developer?
- c) In which stage do you use XML in web development?
- d) Mention some tips you can use to reduce the load time of a web application that you have written?
- e) List two (2) latest web development tools you can use?
- f) State two (2) security features that can you apply to your website and how?
- g) Briefly explain the following;
 - i. How cloud computing supports Web applications?
 - ii. Why a suitable domain name is important for a website?
 - iii. Why you should host your websites?
 - iv. What is W3C and why you should know about it as a web developer?
