PART B

Botany

1)

a.

- (i) Draw a typical growth curve of a bacterium growing in a batch culture and label the growth phases.

- ii) Briefly explain what happens during each phase.

.....

.....

.....

.....

.....

.....

.....

-
.....
.....
.....
.....
.....
.....
.....

b) Some of the nutritional requirements for bacterial growth are listed below.
State in which form the following could be obtained from the culture medium.

Nitrogen

Oxygen

Carbon

Sulfur

Phosphorus

- c) List five (5) environmental factors that influence the growth of bacteria.
-
.....
.....
.....
.....

- d) The solid media are commonly used to isolate single colonies of bacteria.

- i) What is the common substance that can be used to solidify the culture medium?
-

ii) What is the source of the substrate you mentioned in (d) i?

.....

iii). List the properties of a good solidifying agent.

.....
.....
.....
.....

e) What is the difference between a selective medium and a general purpose culture medium?

.....
.....
.....
.....

Zoology

(2)

2.1. Define the following terms.

(a). Polarizer

.....
.....

(b). Analyzer

.....
.....

2.2. Explain the following terms.

(a) Isotropic substances

.....
.....

(b) Anisotropic substances

.....
.....

(c) Achromatic objective

.....
.....

2.3. If you are asked to prepare a stained permanent slide of a bunch of salivary glands of a cockroach, what is the substance you will use to stain the specimen?

.....

2.4. What is/are the function/s of a tissue mordant?

.....
.....
.....

a) Name two (2) commonly used tissue mordants in histological techniques.

- 1.....
2.....

2.5. What are the differences between the transmission electron microscope (TEM) and scanning transmission electron (STEM) microscope?

.....

.....

.....

.....

.....

.....

.....

2.6. Explain the function/s of the following.

(a).Coagulating fixative:

.....

.....

(b) Double staining:

.....

.....

(c). Camera Lucida

.....

.....

(d) Tissue fixatives

.....

(e) Oil emersion lens

.....

2.7. Define polarized light

.....
.....
.....
.....
.....

2.8. What kind of materials gives no reaction to polarized light?

.....
.....
.....
